## LIFETIME TENNIS PLAY N LEARN PROGRAMS

Get your kids started in tennis with one of our exciting Play-n-Learn programs. These programs are designed for kids as young as 5 years old and make tennis fun and easy to learn until they progress into more advanced coaching and competitions using a full sized tennis court.

Our Red and Orange ball classes are the first steps to becoming an Academy player. We have a track record of developing players to state, national and international standard. We have experienced coaches who have been trained and directed by industry leaders. Our learn to play lessons are conducted with an intention to improve players as quickly as possible and we treat them with the same level of professionalism as our Pro Tennis Academy.

In our Play-n-Learn programs, we use specially designed equipment and balls to ensure your child is able to learn the game with ease. The Red and Orange ball classes we offer are specifically designed for kids aged between five and ten years old. These classes focus on developing hand-eye coordination, balance, speed, and agility, all of which are crucial skills for tennis players.

We extend our gratitude to those returning from 2023 and warmly welcome newcomers to explore our Academy. We sincerely hope to have the opportunity to assist you in reaching your tennis goals in 2024 and beyond.

To showcase what sets us apart and help you make the best program choice, we offer a complimentary trial lesson in all our squad programs. Upon completion of the trial, our coaching team will provide a personalized recommendation on the most suitable sessions and program for you.

While we strive to be flexible, it is important to note that our programs are tailored to playing level rather than age. Based on the player's current level, we will make our recommendation accordingly.

Sign up for one of our Play-n-Learn programs today and give your child the gift of tennis!

**Please read carefully for your training day and time have changed in 2024 with limited availability.**
